

Metamorphosis Product Overview

Product Description

Metamorphosis is the world's first automated e-learning authoring tool. It converts MS Word documents and PowerPoint presentations to e-learning format with interactive assessments and text relevant graphics in minutes.

It is ideal for managers, trainers and subject matter experts worldwide. Creating great courses using Metamorphosis requires no programming or scripting knowledge. Even users without page design experience can create visually appealing courses with Metamorphosis.

Key Benefits

- **Automation:** It enables a MS Word document or PowerPoint Presentations to be automatically converted into web ready format within minutes.
- **Rapidity:** Can develop courses literally within minutes and in hours in most cases.
- **Graphics:** Adds contextual graphics from the library of 25,000 images that comes free with the tool. One can of course add or replace with your own images.
- **Ease of use:** No programming or scripting skills required.
- **Simplicity:** Metamorphosis is easy to learn with one hour of training. Can master in about five hours of on the job learning.
- **Compliance:** Publishing with single click to SCORM compliant Learning Management System, website, CD-ROM or LAN network
- **Versatility:** Comes with many readymade themes, background and templates.

- **Editing:** The powerful editing environment supports WYSIWYG (What You See Is What You Get) authoring and preview.
- **Productivity:** There is no limit to the number of courses that can be developed or number of learners that can be serviced.
- **Integration:** Can add text, images, record narrations, prerecorded audio, video clips, flash, GIF animation, PDF embedded to the e-learning document or as an external link.
- **Database:** Automatically creates an MS Access database that can track course completion etc.
- **Accessibility:** Access to the course can be restricted via password or self registering.

Assessment and Tracking Capabilities

- Questions can be randomized in a quiz or test
